

# Bowen Collins & Associates, Inc. Welcomes

Darin Youngstrom, P.E.

In February, Darin Youngstrom joined the BC&A team as a Senior Electrical Engineer. He brings 14 years of experience and will head the electrical team at BC&A, which will allow BC&A to fully support its clients power and instrumentation needs. Darin has experience with low and medium voltage power distribution, SCADA, controls, and emergency power generation systems. As a new service to our clients, Darin will now allow BC&A to offer fault current studies, breaker coordination studies, and arc flash studies to assist you with the latest 2012 NFPA 70E safety requirements for OSHA compliance.

The BC&A team proudly welcomes Darin, and looks forward to providing his expert electrical engineering services on future projects for you, our valuable clients!
