

Hydrogeologist, Draper, Utah (0-5 Years of Experience)

JOB DESCRIPTION

Bowen Collins & Associates is a civil and environmental engineering firm specializing in providing water and wastewater relating consulting services to clients in the intermountain west. As a hydrogeologist, you will have the opportunity to work with and under the direction of a Senior Hydrogeologist, environmental scientists and engineers on projects including components of field investigations, data management, construction management, technical writing, groundwater investigation, and water well design.

JOB TYPE: Full-time

EDUCATION: Bachelor's or master's degree in Geology, Engineering or Environmental Science.

SKILLS/QUALIFICATIONS:

- 0-5 years of experience for entry level position
- Understanding of geology, physical hydrogeology, surface, and subsurface hydrogeology
- Excellent written and verbal communication skills
- Capable of working efficiently with clients, contractors, regulatory agencies, and internal staff
- Willingness to travel for field work as dictated by project demands (remote locations and outside work in various climates)
- Proficiency with Microsoft Office

PREFERRED SKILLS/QUALIFICATIONS:

- Geologist in Training (GIT) or Engineer in Training (EIT)
- GIS and AutoCAD software experience
- Proficiency with a variety of hydraulic and hydrologic computer modeling programs
- Experience in geologic logging of boreholes, monitoring well installation, oversight of water well drilling and installation, oversight of well hydraulic testing, and groundwater and surface water sampling and flow measurements.
- MSHA surface new miner training
- HAZWOPER 40-HR training

BENEFITS OFFERED:

- Paid time off
- Health and dental insurance
- Healthcare spending or reimbursement accounts such as HSAs or FSAs

- Life insurance and disability insurance
- Generous 401K retirement plan
- Opportunities for growth and future ownership
